Knoema, an end-to-end data and knowledge management platform and one of the largest global repositories of public data, has partnered with members of the alternative data community to provide the general public, media outlets, and policy makers with free data resources, visualizations and dashboards related to COVID-19.

Knoema's COVID-19 Situation Room features data from the founding coalition of alternative data providers, including Advan (geolocation data), Apptopia (mobile app performance metrics), Cognovi Labs (AI-powered emotion analytics), Earnest Research (consumer analytics), M Science (consumer, industrials, tech, media and telecom), MedMine (medical devices and hospital supplies procurement data), Prosper Insights & Analytics (consumer confidence, spending and retail) and SimilarWeb (digital data).

Public data sources related to COVID-19 specifically include: The Center for Systems Science and Engineering at Johns Hopkins University, the U.S. Centers for Disease Control and Prevention, the European Centre for Disease Prevention and Control, and the COVID Tracking Project.
